HDDR320E03X
HDDR400E03X
HDDR500E03X

The Storage You Need™ is now available in Frost White, Electric Blue, Hot Rod Red and Carbon Grey![2]

Hassle-free, simple and easy, Toshiba's external hard drives are the solution to your backup needs. The included NTI Shadow backup software eliminates the need to push a button or click an icon to activate a backup. Plug in the drive, load the software and you'll have peace of mind in knowing that all of your important digital photos, music, movies and documents are backed up, protected and portable. The software runs in the background capturing updates to files and automatically saving them to the external drive.

Compatible with both Macs and PCs, it's USB powered and ready to go wherever you need your data.

With everything you need right in the box, Toshiba's External Hard Drives are the ultimate combination of storage and style.

- USB Powered for Portability
- Small Size Saves Desktop Space
- Plug and Play, Ready to Go Out of the Box
- Easy to Use Windows and Mac Software
- Internal Shock Sensor and Ramp Loading Technology
- Simple Solution for Backup or Increasing Computer Storage

1 One Gigabyte (1 GB) means 10^9 = 1,000,000,000 bytes using powers of 10. A computer operating system, however, reports storage capacity using powers of 2 for the definition of 1 GB = 2^{30} = 1,073,741,824 bytes, and therefore shows less storage capacity. Available storage capacity will also be less if the computer includes one or more pre-installed operating systems, pre-installed software applications, or media content. Actual formatted capacity may vary.

2 Some colors may not be available in all drive sizes.

3 RoHS Compatible: This product is compatible with European Union Directive 2002/95/EC. Restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS), which restricts use of lead, cadmium, mercury, hexavalent chromium, PBB, and PBDE.

4 While most systems provide sufficient power over the USB port for the Toshiba Portable External Hard Drive, a few manufacturers and some older systems limit this power. If you find that your Toshiba Portable External Hard Drive does not spin up, you may require a USB “Y” cable. This cable combines the power from two USB ports to provide ample power to your drive. Please contact Toshiba SDD Technical Support for information on obtaining a “Y” cable.
